

TELECOM CUSTOMER COMPLAINT - FORMAL REPORT

Date: 07 June 2026

Customer: Rajesh Kumar Mobile: 98200-11045

Service Area: Bandra West, Mumbai

Subject: Complete network outage for over 6 hours

To the Network Operations Team,

I am writing to report a complete loss of mobile network and data services in the Bandra West area of Mumbai since early this morning. There has been absolutely no signal on any device in my building, and neither calls nor mobile internet are working.

This is the third such outage in Bandra this month. Several of my neighbours on Hill Road and near Bandra station report the exact same total outage. We suspect the local cell tower has failed, as the signal indicator shows no bars at all.

This outage is severely affecting work-from-home staff and local businesses. Hundreds of users in the area appear to be impacted. Please treat this as a critical, high-priority incident and send a field engineering team to inspect the Bandra tower immediately.

Issue type: network outage / tower failure

Severity: critical

Location: Bandra West, Mumbai

Regards,

Rajesh Kumar
