

TELECOM CUSTOMER COMPLAINT - FORMAL REPORT

Date: 08 June 2026

Customer: Amit Sharma Mobile: 98110-33077

Service Area: Delhi North

Subject: Frequent call drops affecting business calls

To the Network Operations Team,

I am writing to report repeated call drops across the Delhi North sector for the last two days. Calls disconnect every couple of minutes and the voice quality is poor with echo before the drop.

This is affecting my work calls badly, and colleagues in the same area report identical problems. The issue appears tied to the local tower handling the Delhi North sector.

Please look into the Delhi North tower and resolve the call drop issue at the earliest.

Issue type: call drop

Severity: medium

Location: Delhi North

Regards,

Amit Sharma
